Dear Customer,

This product you have purchased has been subjected to all kinds of controls and tests by us before reaching you. Even in this case, it is possible for some parts to be damaged during transportation. If you encounter such a situation, do not return the entire product. Just ask for the damaged part. While requesting the required part, define it exactly by looking at the service card.

The missing part will be sent to you as quickly as possible.

Before starting the assembly, check all the parts and accessories that come out of the boxes according to the lists.

After you have determined that the parts and accessories are complete and intact, start the assembly.

Before starting the assembly, clean each part with a damp cloth.

If you have purchased more than one product, switch to the other product after assembling a single product in order not to cause any response.

Never carry the products by rubbing. Lift and disassemble the product and carry it with at least two people.

Carry the product with the package for long distance transportation.

It is very easy to clean the surfaces of your furniture you have bought. It is sufficient to wipe with a damp soapy cloth or other household cleaners.

Since the furniture is affected by extreme heat, cold and humidity, do not contact your furniture directly with these factors.

Do not use your furniture out of its purpose.
